

In-service Training (IST#: 30753)/CEU Survey (ID:16706)

FOR COMMERCIAL VEGETABLE AND FRUIT PRODUCTION Wednesday, February 26, 2014

I. Please evaluate the informatio	Please evaluate the information you received today and mark your answers with an 'X'. Very Ver						
1. Time use	Dissatisfied	Dissatisfied	Unsure	Satisfied	Satisfied		
2. Topics							
3. Presentations							
4. Handouts							
5. Knowledge gain							
6. Communication							

- II. Please mark your top 5 choices for next IST with an 'X'.
 - 1. Overview of commonly used commercial fertilizer blends
 - 2. Interaction of nutrients with each other and with soil moisture, pH,
 - 3. Importance of timing & placement of fertilizers for vegetables
 - 4. UNITIENT management under center pivot irrigation
 - **Conversion calculations from liquid** 5. to dry fertilizer
 - Injection rate for fertigation 6.
 - **Optimization of fertilization** 7.
 - Controlled release fertilizers 8. L
 - 9. Ertilizer basics
 - 10. Interaction between fertilization and irrigation
 - 11. Hertilizer compatibility in fertigation
 - 12. Water saving technology

13. Water quality and salinity control 14. Soil amendments/surfactants 15. **Biochar basics** 16. L Weed control under overhead irrigation 17. Disease control 18. 🖾 Pest control in organic vegetable production 19.L Cover crops and nematode control 20. Freeze protection technology 21. Food safety and sanitation Post Harvest 22. 23. Agro-economics basics 24. 🗌 Others:

III.	The number of farms you serve is:	_	_
	a. 🔟 1~10	d. 🔟 51~100	g. 🔄 301~500
	b. 🔟 11~30	e. 🔟 101~200	h. 🔄 501~1000
	c. 31~50	f. 201~300	i. 🗌 more than 1000
IV.	The average acreage of the farms yo	ou ser <u>ve</u> is:	_
	a. 🛄 1~100	c. 🔄 301~500	e. 🔄 1001~2000
	b. 🔟 101~300	d. 🔄 501~1000	f. 🔄 more than 2000
V.	-	niques from this IST training to your g	growers, your estimate of
	production cost (\$)saving would be:		
	a. 🔲 1~50	c. 🔲 101~200	e. 🔲 301~500
	b. 🔄 51~100	d. 🔟 201~300	f. 🔄 more than 500
VI.	Your estimate of increasing product	ivity (\$) per acre would be:	
	a. 🗌 1~100	c. 🗌 301~500	e. 🗌 1001~2000
	b. 101~300	d. 🗌 501~1000	f. more than 2000

VII. Please tell us how we did today and how we should improve our future workshops. THANKS!
