We understand that many of you may not care to collect detailed performance data. But should you choose, we'd love to have any quantitative data such as yield that you collect. We are also interested in any specific diseases or disorders that you encounter. Pictures of affected leaves and fruit can be very helpful.

Your location (City, State, Country):

How did you grow the plants (e.g. pots, hydroponics, raised beds, or in the ground)?

Did you use plant supports (e.g. cages, stakes, etc.)? Select One: Yes or No

What did you add to the soil just prior to planting or during growth (e.g. fertilizer, peat, garden lime)?

Did you prune your plants? Select One: Yes or No

Describe your pruning technique.

Did you use any disease control products? Select One: Yes or No

Date (mm/dd/yyyy)	R Hybrid	BW Hybrid	Garden Gem- ph

Overall performance			

For what purpose do you think each fruit type is best suited for?

Would you grow it again? Select one: Yes or No

If yes, which varieties would you choose to grow again?

Any additional comments on performance or disease:
